

Well-rounded into one

One part number, a host of benefits

- Complete solution instead of individual components
- For standard ZX delivery lines
- 130 bar operating pressure, with safety factor 2
- Compact wedge that is lightweight and easy to handle
- Quick and easy to install
- Lock pin prevents loss of the wedge
- Drop-forged and galvanised
- Different versions:

| Wedge coupling | Part no. |
|----------------|----------|
|----------------|----------|

| | |
|--------------|-----------|
| ZX-W 6,0 130 | 240948003 |
|--------------|-----------|

| | |
|--------------|-----------|
| ZX-W 5,5 130 | 244419004 |
|--------------|-----------|

| | |
|--------------|--------|
| ZX-W 5,0 130 | 581430 |
|--------------|--------|

| | |
|--------------|-----------|
| ZX-W 3,0 130 | 252693003 |
|--------------|-----------|

New wedge coupling for ZX delivery lines – one solution, one part number, one hand movement

Enough with the painstaking assembly of individual components! The new wedge coupling for the Zentrifix® (ZX) delivery line from Putzmeister can now be ordered under a single part number. Talking of quick and simple: all you need is one person and one hammer to connect the fully sealed pipeline quickly. The compact, space-saving wedge is turned with a single hand movement. It is impossible to lose the wedge because it is secured with a lock pin. New feature: the coupling on the ZX-W 5" version can easily withstand an operating pressure of 130 bar. Contact a member of our Putzmeister service staff or a Putzmeister dealer for more details.
